Description of course and structure

This course has 7 modules for the duration of course.

Academic modules developed by Pearson Edexcel
1. English
2. Mathematics
3. Science

Non-academic modules Developed by IIS
4. Topic of Inquiry
5. Creative Arts
6. Personal Development and Health Physical Education (PDHPE)
7. Social Skills (non-graded module)

English
- Students develop knowledge, skills and understandings about the English language and literature. They will learn to create and interpret a range of literary and factual texts.

Mathematics
- The study of the subject enables students to develop a positive self-concept as learners of Mathematics. They'll learn how to recognise and apply all forms of Mathematics in their everyday lives and other key learning areas.

Science
- Our hands-on exploratory programme stimulates students' curiosity and helps them understand scientific concepts, skills, experiments and processes relating to Life, Physical and Earth sciences.

Topic of Inquiry
- This subject is up to the teacher's discretion, as they can request students' input to discover what will peak their learning interests. For example, it could be a general subject like Geography or more specific topics such as learning the history of Singapore.

Creative Arts
- The IIS programme aims to provide foundational learning in the art forms that continue in the subjects of visual arts, music, drama and dance.

Personal Development Health and Physical Education (PDHPE)
- The PDHPE programme emphasises participation for all, with involvement in competition for upper primary students.

Social Skills
- Students learn essential skills through experience-based opportunities and how to positively interact and communicate with others.
